REMARKS <u></u>		
25X1		

1. Motor vehicles registered in Land Brandenburg in early August 1950 totaled 10,500 trucks, 6,200 trailers, 4,500 prime movers, 9,500 passenger cars, 670 special cars and 16,000 motorcycles. *
2. Effective 1 August 1950 fuel allocations for commercial and private motor vehicles in Land Brandenburg were on the average of 50 percent. No exact figures are available on the allocations of diesel fuel, but considerable cuts have been ordered in that fuel also. **

25X1A * Comment. It is not clear whether these figures refer to operating vehicles or also include those which are not serviceable at present **because of a lack of tires or batteries**, both of which are critical items in the Soviet Zone. The last statistical data on motor vehicles available in the Soviet Zone as of 1 December 1948 were previously transmitted.

25X1A** Comment. The reasons for these reductions are not known. They may have been caused by increased fuel deliveries to the occupation power.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
